State of Delaware Commissioner of Elections

Voting is Easy in Delaware!

How to Vote

- Register to vote at the Department of Elections in person or by mail. You may also register at the Departments of Motor Vehicles, Health and Social Services or Labor when you are receiving services.
- If you move, be sure to update your address in your new Election District.
- Once registered, you will receive notification by mail of where to vote.
- We suggest that you read all election materials on candidates and issues prior to voting.
- Bring identification to the polling place. This can be a photo ID, utility bill, paycheck or any other government document with your name and address on it.
- If you registered to vote by mail and did not provide copies of your identification at that time, you must bring identification to the Polling Place.

Operating the Voting Machine

If you think there is a problem with your voting

Electronic voting is quick and easy.

machine, stop and ask for assistance immediately. When you are in the voting booth, you must make at least one selection. Press the "X" next to each candidate or issue you select. To change a selection, press the button next to your original choice and the light will go out. Make another selection.

Changes can only be made **BEFORE** pressing the **GREEN VOTE** button.

Once you have finished making ALL your selections, **REVIEW** your selections. Don't press the **GREEN VOTE** button until you are sure you have made all of your selections. When you are sure of your selections, push the **GREEN VOTE** button below the lower right portion of the ballot to cast your vote.

You may not use the write-in option during a primary election.

Safe and Secure Voting

The electronic machines used in the State of Delaware are safe and secure. They are not "on-line" so there is no risk of anyone being able to see or change your vote electronically. All voting machines are equipped with backup and paper tapes to ensure that no vote is lost due to equipment failures.

Assistance for Disabled Voters

Members of the voting public are a very diverse group. Those of you who require extra time or assistance during the voting process will receive that help in an unhurried, friendly and helpful manner. If you require assistance, let the Election Officers know at your polling place.

Voting machines in the State of Delaware can be

adjusted for voters who have difficulty reaching the ballot when the voting machine is in the upright position.

The vertical reach of a person in a wheelchair can be extended by turning the wheelchair sideways.

Federal law permits disabled voters to be accompanied by and to receive assistance from anyone they choose in the polling place and voting booth. However, people providing assistance are not permitted to be your employer, an agent of your employer or an agent of your work union.

If someone assists you by filling out the voting forms, you must still sign your own name. If you are unable to sign your own name, you may sign with an "X".

If you are accompanied by a service animal, that animal may go with you into the voting booth.
